SUMMARY

Hi, I'm Ahmed passionate angular developer with 2+ years of experience learning and building apps. I focus on merging academic knowledge with real-world application through practical projects.

Skills

HTML | CSS | JavaScript | Bootstrap | Tailwind CSS | Sass | TypeScript | Angular | Angular-Material | RXJS | NGRX | Angular-Testing | Git | GitHub | Git Flow | Agile | Figma | AdobeXd | OOP | Problem Solving | Data Structures | Algorithms | Rest Apis | NodeJs | express | MongoDB | MySQL | Swagger Documentation | Solid Principles | Cloudinary | Postman | Scket.io | JWT authentication

Projects

EmpowerHub [github repo](#) [swagger documentation](#)

Angular | Angular-Material | Bootstrap

A Employee Mangement System application built with angular, angular-material and Bootstrap, featuring lazy loading interceptors, JWT authentication, multi languages support(Arabic, English), dark/light mode, and a structured workspace. it ensures smooth user experience with skeleton loading for enhanced performance.

Freelance Market [github repo](#) [swagger documentation](#)

NodeJs, Express, MongoDB, Swagger, Angular, Angular-Material, Tailwind

Freelance Market a full MEAN web stack platform. it enables users to showcase their services, apply for others' services, manage offers by accepting or rejecting them and allow users to edit their profiles. The system includes JWT authentication, and a responsive UI for an optimized user experience.

Taskify [github repo](#)

Angular Bootstrap

Advanced Drag Drop Kanban To-Do List. A fully responsive web application built with angular for efficient task management. Users can add, delete, edit, reorder tasks while marking them as completed or not. All data is stored in Local Storage for persistence, ensuring a seamless experience across different devices.

Portfolio [github repo](#)

Angular Bootstrap

I highly recommend checking out my portfolio to explore my work, skills and projects.
